

CHAPTER02 使用PYTHON解释器

▶ 运行python(或者python3)进入交互命令行

A screenshot of a macOS terminal window. The title bar shows a home icon, the text 'xuepx — Python — 80x24', and three window control buttons. The terminal content shows the last login time, the command 'python3' being executed, and the Python 3.6.5 startup banner with version, date, and compiler information. The prompt '>>>' is followed by a cursor.

```
xuepx — Python — 80x24

CHAPTER02 使用PYTHON解释器

- ▶ 可执行脚本
 - ▶ `#!/usr/bin/env python3` 作为文件第一行
- ▶ 运行Python脚本
 - ▶ `python mycode.py`
- ▶ 引入包
 - ▶ `import os`
